

## Crosses Across America: A photo journal of roadside monuments!

This book is the result of my wife's suggestion that I should produce a testimony to the many people, young and old, who have perished on America's highways and byways in a sudden and unexpected turn of events that, in a split second, resulted in their tragic deaths. A recent survey claims that United States Drivers have more than 6 million motor vehicle accidents in a year or one accident every 5 seconds. On Average, someone is injured in an accident every 10 seconds. Sadly, someone is killed in a motor vehicular accident every 12 minutes and every 15 minutes someone dies as the result of an alcohol related traffic accident - and that is what this book is all about.
