

Romano-British Coin Hoards (Shire Archaeology)

This is not a study of Romano-British coins per se, but rather a study of hoards found in the former provinces of Britannia. It combines both an introduction to hoarding, discussing some of the major discoveries in recent times, and an outline history of hoards and coinage from the early conquest period to the 5th century AD. Most of the examples cited are in the public domain and can be found in museums.
