

Libertaria: Genesis Sci Fi Opera Fan Edition (With Cast Album) (Libertaria Chronicles Book 1)

In the abandoned ruins of a Nueva York dystopia, teen Libertaria escapes a horrific world of DNA testing and loneliness, only to team up with her megalomaniac father in a quest to destroy the Factory that made her. Armed with a ragtag army of cyborg misfits, Libertaria joins forces with her drug addict dad Simeon Aguila, leader of the Underground metropolis, to destroy GenTechs immortal Collective. But who is the deformed soldier invading her thoughts? And can she destroy the Factory before her traitorous deformed nemesis Lucinde betrays them all? Unearthing dangerous family secrets that explain her mysterious past, Libertaria learns that sometimes to save the world you must first lose your soul! Libertaria: Genesis is dystopian, and good at it, and that needs further examination. - J. Roseman, escapepod.org One of my favorite things about this story is its odd apocalyptic tone and strong sci-fi/fantasy foundation. The dark quality that comes with it is the cherry on top. primarily quite dark and sinister, very much along the lines of a contemporary video game score. Palm Beach Arts Paper Music Critic Greg Stepanich on Libertaria: The Virtual Opera. LIBERTARIA: GENESIS is Youngs debut sci-fi novel, the first in a series based on her animated film Libertaria: The Virtual Opera. Enjoy this action packed young adult science fiction thriller!
