

## Superman vs. The Terminator: Death to the Future

Superman: he can bend steel, leap tall buildings, and is faster than speeding bullets...but can he save the future?! The sentient computer known as Skynet has been sending Terminators into our present to find and destroy a boy named John Connor. Not just any boy, he will grow to lead a resistance force against a massive robot army that has brought mankind to the brink of extinction. Now the Terminators are hunting for young Connor in Metropolis. But Skynet didn't plan on the Man of Steel coming to the rescue...or did it? As the battle to save mankind rages in the Metropolis of the present and the future, will the combined might of Superman, Supergirl, Superboy, and Steel be enough to stop the deadly killing machines -- and their new ally, the Cyborg-Superman -- from terminating John Connor? And will Lex Luthor lend a helping hand...or does he have something more sinister in mind for the Terminators? The ultimate battle for the future ends here -- and the results will shock you!
