

# The Torture Report (Part 2): Committee Study of the Central Intelligence Agency's Detention and Interrogation Program: Additional Views

Torture Report Part 2 -- Additional Views. The Senate Intelligence Committee has released the highly anticipated 500-page summary of its report on the CIA's post-9/11 torture program. It provides a sobering glimpse into one of the darkest chapters in the U.S. government's history. These additional views of the majority (Part 2) are released in addition to the main report. After a grueling 5-year investigation, Senate investigators reveal torrid details of the systemic and individual failures by the agency personnel who ran the enhanced interrogation program -- the government's euphemism for systematic torture -- during the George W. Bush administration. The program involved capturing terrorism suspects and shipping them to secret overseas prisons, where they were subjected to techniques such as waterboarding (and worse).
