

## Starting Out With Visual Basic 2008 Update (4th Edition)

For undergraduate students in business, MIS, CIS, IT and other computing departments at 2 and 4 year schools learning Visual Basic for the first time. In the Starting Out with Visual Basic 2008 Update, Tony Gaddis and Kip Irvine take a step-by-step approach, helping students understand the logic behind developing quality programs while introducing the Visual Basic 2008 language. The 2008 Update edition includes an extensive set of VideoNotes that supplement student reading. Numerous additional problems and an overview of LINQ are also included.
