# Structuring Techniques: An Introduction Using Turbo C (An Alan R. Apt Book)

Written to provide an introduction to both structured programming and object-oriented programming using the C++ language and the Turbo C++ compiler, this text starts from the beginning, assuming no previous knowledge of C, or any other programming language. It covers topics such as: getting acquainted with computers, programs and Turbo C++; writing simple C++ programs; multidimensional arrays, pointers, and structures; and an introduction to object-oriented programming.
