

Tadao Ando at Naoshima: Art Architecture Nature

Tadao Ando is the most revered Japanese architect at work today. Beloved and admired for his powerful, meditative spaces and his sensual and yet refined use of the materials of the modern trade-wood, steel, concrete, glass-Andos work resonates with profound intelligence, unpretentious elegance, and an almost palpable sense of harmony. Tadao Ando at Naoshima: Art, Architecture, Nature showcases the latest work in an on going process of building by Tadao Ando at the acclaimed Naoshima Island Art Complex. Featured here is Andos recently completed Chichu Art Museum, an underground facility built on the small island in the Inland Sea of Japan. With respect for the landscape and the traditional use of the land as terraced salt fields, Ando adapted the architecture to the topography, by burying much of the complex volume below the ground. Andos Naoshima is a stunning demonstration of architectural virtuosity.
