

The 7 Keys of the NeuroConducting Technique: Orchestral Conducting 3.0

Without a doubt, the Neuro Conducting Technique has been one of the most innovative contributions that our School of Orchestral and Band Conducting Maestro Navarro Lara has offered the world of Orchestral Conducting. Our own students wanted to go further into this fascinating subject by conducting a considerable number of questions about it that Choirmaster Navarro Lara responded live in a marathon session of more than five hours straight through the TV Station of our school. The recollection of those questions and answers, its logical and didactic organization, of the reflections and contributions they inspired... of all this vibrant experience, this experimental book is born, full of dynamism and realism, characteristic of some reflections born spontaneously and sincerely from the passion of the author, whose primary objective is to share his knowledge with anyone who wants to learn deepen into the real Art of Orchestral Conducting to the last consequences, within the new generation of Orchestral Conductors 3.0 of the 21 century. In this book, the bases of the Neuro Conducting Technique are seated, which has changed the lives of thousands of musicians and Choirmaster Conductors, Chorus Conductors and Band Conductors over 30 countries worldwide. Now, yours will also change.
