

The Art of Film Magic: 20 Years of Weta

This deluxe slipcased two-volume set is an insiders tour of twenty years of film-making magic at Weta Workshop and Weta Digital, the creative companies behind such celebrated films as *The Lord of the Rings*, *Avatar*, *The Avengers*, *King Kong*, *District 9* and *The Hobbit*. Brimming with never-before-published content, including concept designs, sketches, making of and behind-the-scenes imagery, along with interview material from cast and crew members, it is a stunning look at how the costumes, creatures and characters, weaponry, and visual effects are created for some of the worlds most iconic films. A director will have a vision in their head of the kind of movie they want to create but they always need great teams to realise that vision. This is what Weta Workshop and Weta Digital do. Based in Wellington, New Zealand, these two companies, founded by Peter Jackson, Jamie Selkirk, Tania Rodger and Richard Taylor have been an integral part of some of the most ground-breaking and acclaimed movies of all time.
