

## Dressed In Black

Amys sophomore year in High School just started and already everything is going wrong. Her long term girlfriend Andrea is going to jail, her chronic migraines are worse than ever before, and nobody understands what shes going through. As life starts quickly spiraling downwards, she finds herself lost in a dazed cycle of drugs, sex, and self injury. Can she crawl her way out of the dark hole, or will the pain take over and triumph? Based on a real journal, this is a story of love and betrayal, life and death. This is her story.
