

The Federalist Papers Hamilton Study Edition

The Federalist Papers are a series of 85 articles advocating the ratification of the United States Constitution. Seventy-seven of the essays were published serially in The Independent Journal and The New York Packet between October 1787 and August 1788. A compilation of these and eight others, called The Federalist; or, The New Constitution, was published in two volumes in 1788 by J. and A. McLean. The series correct title is The Federalist; the title The Federalist Papers did not emerge until the twentieth century. (Wikipedia)The Hamilton Study Edition was created for ease of reading and note taking. The large size and half in margins leave plenty of room for note taking and comments.
