

Treen for the Table: Wooden Objects Relating to Eating and Drinking

Concentrating on pieces of treen related to eating and drinking, this book celebrates the range and richness of the turners art from 1600 to 1900. It covers a wide range of objects for everyday use - goblets to nutcrackers, platters to lemon squeezers, and wassail bowls to egg cups. The book discusses the work of the jobbing village turner or bodger, the skilled craftsmans workshop and the grand Court turner producing complex rose engine turning. It illustrates pieces only to be found in museums and examples you can find today in local antiques markets or fairs. Information is given on where treen may be seen and found and there is practical advice on pitfalls for the collector, dating and cleaning, as well as a chapter dealing with surfaces and patina and one asking for readers help in identifying the purpose of some curious objects.
