

## The Terminator: 2029 #2 (The Terminator Vol. 1)

In the barely-remembered time before the Terminators, the young woman who is the key to humanity's survival depends on the actions of Kyle Reese in present-day 2029. But Kyle may not live long enough to help Sarah Connor if he and his companions Ben and Paige can't escape Skynet's terrifying new weapon--Terminators that look just like people! Guided by information about a hidden Cyberdyne facility, the three friends must brave T-800s, HKs, rogue resistance gangs, and other threats in their search for any advantage against the machines. What they can't anticipate is the nature of the incredible resource hidden within the facility's walls! \* Written by rising star Zack Whedon (Dr. Horrible, Fringe, Deadwood)!
