

The Urban Nomad - Vienna

Vienna invented the cafe, that most congenial escape hatch of Western civilization, where modernist ideas such as psychoanalysis were hatched at the dawn of the twentieth century. The visitor can still take a vacation from stress at 300-plus establishments, and leave his or her troubles (and cholesterol count) at the door for the price of a cup of coffee and a slice of cake. But there is a dark past beneath the elegant glitter. The Urban Nomad, son of Viennese emigres, brings you the bitter along with the sweet.
