

OPERATORS AND ORGANIZATIONAL MAINTENANCE MANUAL FOR GRENADES, TM 9-1330-200-12, 1971

OPERATORS AND ORGANIZATIONAL MAINTENANCE MANUAL FOR GRENADES, TM 9-1330-200-12, 1971

General Grenades are small bombs of a size and shape convenient for throwing by hand or launching from a rifle or vehicle. The hand grenade is thrown by hand. However, some hand grenades may be launched from a rifle grenade projection adapter and by a special grenade cartridge. The rifle grenade is launched by a special grenade cartridge from a rifle. Hand grenades are used to supplement small arms against an enemy in close combat, for producing a riot control agent, for smoke screening and signaling, and for incendiary purposes. Rifle grenades are used against armored targets, fortifications and personnel, and for screening and signaling. Tables 1-1 and 1-2 contain a listing of authorized hand and rifle grenades, respectively. Table 1-3 lists special type grenades. Table 1-4 lists time to grenade functioning after release of safety lever.

CHAPTER 1. INTRODUCTION Section I. General Scope Forms, records and reports Section II. Description and Functioning General Hand grenades. Rifle grenades Grenade, Launcher, Smoke: Screening, RP, UK L8A1, UK L8A3 Grenade, Launcher, Smoke: IR Screening, M76 Grenade, Launcher, Smoke: Simulant Screening, M82 Grenade, Launcher, Smoke: Screening, TA, M90 Grenade, Launcher: Non Lethal, Distraction, M98 Grenade, Launcher: Non Lethal, Blunt Trauma, M99 Grenade, Discharger: Anti-Riot, Irritant, CS, L96A1 Grenade, Discharger: Anti-Riot, Practice, L97A1 Grenade, Hand: Practice, Stun, Reloadable, M102 Section III. Safety, Care, and Handling Safety Care Handling CHAPTER 2. OPERATING INSTRUCTIONS Section I. Operation Under Usual Conditions Hand grenades Rifle grenades Launcher grenades Section II. Operation of Materiel Used in Conjunction with Major Items Grenade

projection adapters Rifle grenade cartridges
 Section III. Operation Under Unusual
 Conditions General Extreme temperature
