

Baby to Toddler Month by Month

Baby to Toddler Month by Month follows your baby's journey from 6 months to 23 months, by which time your child will be a running, talking toddler with attitude and character. This month-by-month guide explains how your baby will be developing and what you can realistically expect to see each month. It covers sleep problems, feeding, development, and much more including: baby-led weaning or mixed weaning? You decide includes step-by-step guides to both methods age-appropriate meal plans, finger foods and eating tips month by month encouraging your toddler to walk and talk when to take your child to the doctor, and spotting an emergency dealing with tantrums and attitude... the easy way coping with hitting and biting milestones when to worry and when to wait it out. This book makes toddler behaviour fascinating rather than alarming or overwhelming.
