

Twin Visions: The Magical Art of Boris Vallejo and Julie Bell

In this eagerly awaited new collection, Boris and Julie show off many of their most recent masterpieces, created over the last few years, together with a selection of pictures taken from earlier on in their careers that have never before been featured in their books. Strong men, sensual women and a grand array of monsters and beasts are all portrayed with the vivid color and bold eroticism that so characterizes their work. The provocative paintings were often originally for calendars and other commissions and together they make an invaluable addition to the collectors portfolio.
