

# Vatsyayana Kama Sutra - The Hindu Ritual of Love (The Complete and Unexpurgated)

Kama Sutra has long been familiar to and much sought after by students of Eastern literature. Its exotic flavor preserved through brilliant translation, this classic Hindu treatise on love and social conduct recreates an ancient world of strange and fascinating customs in the telling of amorous conquest by the male of the female. The seven parts and thirty-six chapters that comprise this complete and unexpurgated volume make it perhaps the most definitive work ever written on the complex art of wooing and its ultimate aim - seduction.
