

California: Through An Artists Eye

Through his colorful oil paintings and the poignancy of his verse, artist Steve Simon takes us on a spirited, artistic journey around this great state. From peaceful redwoods in the north to bustling San Diego Harbor in the south, from the chilling heights of the Sierra Nevadas to the searing depths of Death Valley, the artist commits his inspirations of the Golden State to canvas. His poetic reflections accompanying each composition add touching vulnerability and access to the artists heart. California, as seen through the eyes of Simon, is presented with uncommon sensitivity through this lovingly crafted book. The ambitious 60-piece collection represents a broad sampling of Californias magnificent landscape at an epic point in the states history--the 150th anniversary of statehood at the turn of the millennium.
