

Wolverine: Weapon X, Vol. 2: Insane in the Brain

Welcome to Dunwich Sanatorium, where the only people weirder than the patients are the doctors in charge. The newest resident is a man known only as Patient X, a poor confused soul who doesn't remember who he is or how he came to be here. He only has vague memories of living with wolverines and traveling to the moon and killing lots and lots of people. Lucky for him, he came to the right place. The good Dr. Rot knows everything there is to know about the human brain. Including how to remove it... Collects Wolverine: Weapon X #6-10.
