

World of Warcraft Cookbook (Unofficial): World of Warcraft Cooking Guide (World of Warcraft Guide) (Volume 1)

This World of Warcraft Cookbook and Cooking Guide details the most efficient method of leveling Cooking from levels in the World of Warcraft. Cooking is a secondary profession, which means learning to cook won't limit what other professions you train your character in. It complements the Fishing profession very well, as most fish can be cooked. Cooking can also increase the beneficial effects gained from eating food, and can provide a modest gold income. Learn how to become a Master Chef and become one using this WOW Cookbook. Enjoy!
