

You're Bolivar Trask, the reanimated leader of the Mutant Response Division. Your mission: Kill every member of X-Factor. How to accomplish that without collateral damage? Easy: hire the team for what seems to be a routine case that will send them into a certain death trap. Problem solved. And in NATION X, Cyclops invites the world's only mutant detective agency to relocate to their floating island retreat and take up residence there. But will Madrox and his team believe that it's the best place for them? What old faces will pop up, and what old acquaintances will be renewed? And will there even be a Utopia left when the mysterious Crone shows up and threatens to bring the entire place crashing down into the Pacific? Collecting: X-Factor #204-206, Nation X: X-Factor
